Last Updated

Jan 08, 2026

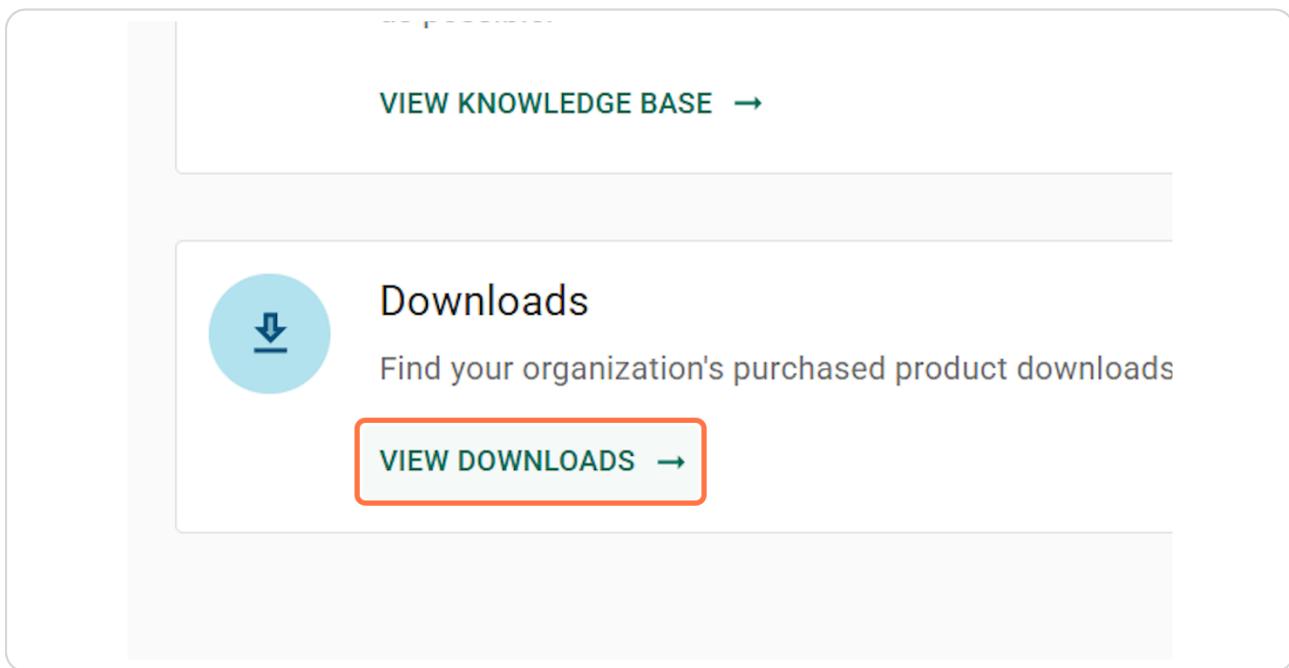

STEP 1

Click on Secure ICAP Gateway

STEP 2

Click on View Downloads

STEP 3

Click on Secure ICAP Gateway...

A screenshot of the FORTRA Support website. The header includes the FORTRA logo, a "Support" link, and navigation options like "Manage Requests", "Open Support Request", a search bar, and a user profile icon. The main content area shows the URL "Home > Secure ICAP Gateway > Downloads". Below this, a section titled "Secure ICAP Gateway Downloads" contains the text: "Here are some overarching details about downloads for this product. Any information or links provided here should be applicable to all versions." Underneath this text are two buttons: "LATEST VERSION" and "PREVIOUS VERSIONS", with "LATEST VERSION" being underlined. A callout box highlights the "Secure ICAP Gateway" section, which displays the text "Version 6.2.0 - Released: 12/9/2025". At the bottom of the page is a footer with the text "Still not finding the help you need?"

STEP 4

Click on Secure ICAP Gateway

The screenshot shows a software download page. At the top, it says "Version 6.2.0 - Released: 12/9/2025". Below that are three links: "Release Notes", "Installation Guide", and "Online Help". A prominent download button labeled "Secure ICAP Gateway" with a downward arrow is highlighted with a red border. To the right of the download button, it says "Platform: Linux RHEL 9.7 (X64) | Version: 6". At the bottom right, there is a link "Still not finding the help you need?".

STEP 5

Click on Installation Guide

The screenshot shows the "Installation Guide" page for the Secure ICAP Gateway. It features the same header information as the previous page: "Version 6.2.0 - Released: 12/9/2025". Below the header are three links: "Release Notes", "Installation Guide", and "Online Help". The "Installation Guide" link is highlighted with a red border. At the bottom, there is a download button labeled "Secure ICAP Gateway" with a downward arrow, and to its right, the text "Platform: Linu".
